Meat of the absolute top class from the region of Upper Bavaria

Taste the difference!

★ *Charolais-calf from mother animal and pasture husbandry.*

Species-appropriate reared with milk of the mother cow on the lush vernal meadows.

The herd eats only grass, in the middle of winter hay. Without supplementary feeding of grain or silage. Single slaughter without stress for the animal.

☆ *Charolais-cattle from mother animal and pasture husbandry on our*

lush meadows. From birth species-appropriate reared without feeding of grain or silage. In winter, only feeding hay. Single slaughter without stress for the animal.
